Marriage and Family Therapy
A Practice-Oriented Approach
Linda Metcalf, PhD, LMFT, LPC, Former President, The American Association for Marriage and Family Therapy, Editor
There are many different models of marriage and family therapy; the challenge for students and beginning practitioners is deciding which one best suits their individual purposes. This highly practical volume elucidates the defining characteristics of 14 contemporary models, including their history, views of change, views of family and the role of the therapist; methods of assessing family dynamics; goal setting, and facilitating change; and knowing when to terminate. Each chapter also includes a template for implementing therapy models, and realistic case studies—many drawn from actual practice—to illustrate how each model would address common issues.

In addition, the volume includes extensive interviews with master therapists such as Albert Ellis, Insoo Kim Berg, Sue Johnson, Susan McDaniel, Derald Wing Sue, and many others. They share their ideas on the ways in which change occurs, how they set goals, and how they perform therapy. For further clarification, each therapist illustrates how he/she would proceed via the same case study. Learning how to perform effective family therapy can be an arduous process of trial and error, yet this resource will ease the way for students and currently practicing family therapists who need to revisit the basics.

Key Features:
• Introduces the theory, history, theoretical assumptions, techniques, and components of each model
• Includes a template for using each model, from the initial meeting through assessment, intervention, and termination
• Provides numerous interviews with master therapists
• Includes case study commentary and analysis by master therapists
• Suggests questions, therapeutic strategies, and/or comments to consider for each therapeutic phase
• Includes a personality inventory to help readers select the most effective modality

Counseling Adults in Transition, Fourth Edition
Linking Schlossberg’s Theory With Practice in a Diverse World
Mary L. Anderson, PhD, Jane Goodman, PhD, Nancy K. Schlossberg, EdD
The only textbook explicitly designed to address counseling with adults who are coping with individual, relationship, and work transitions, this volume integrates the basic tenets of adult development with therapeutic practice. It is based on Schlossberg’s theory of transitions, a new process and content model that offers effective techniques for helping adults to understand and successfully navigate normal life transitions. This revised edition addresses contemporary societal ills that exacerbate adult life transitions, such as a tumultuous economy, increased unemployment, bankruptcies, and foreclosures, and focuses on our increasing racial and cultural diversity. The volume also expands its consideration of spiritual and social justice issues and provides a more integrated and holistic approach to adult transitional counseling.

Key Features of the New Edition:
• Based on Schlossberg’s technique, a new model for counseling adults in transition
• Offers practical new strategies and exercises for use in transitional counseling
• Addresses unemployment and coping in an uncertain social/economic context

Strengthening the DSM
Incorporating Resilience and Cultural Competence
Betty Garcia, PhD, LCSW, Anne Petrovich, PhD, LCSW
As it stands, the DSM fails to address important sources of strength and resiliency that can significantly affect diagnosis and treatment. The authors of this transformative volume propose enhancements to the current diagnostic and classification system that encompass the biopsychosocial, cultural, and spiritual milieus of individuals and acknowledge the strengths originating from personal, family, and community resources. This proposed Axis VI addresses contextual and individual factors related to diversity, equity, and resiliency, thereby enabling an understanding of the whole person and offering significant resources for treatment.

Within each chapter, the authors demonstrate the use of strength-based multicultural diagnostic processes and application of Axis VI to specific disorders, including mood disorders, anxiety disorders, conduct disorders, oppositional/defiant disorder, dementia/Alzheimer’s disease, schizophrenia and other psychoses, and substance-related and co-occurring disorders. The text also reviews relevant etiology and evidence-based research for each disorder and highlights current strength-based and culturally competent approaches to diagnosis and treatment. For the utmost clarification, case vignettes for each disorder describe diagnosis with and without the use of Axis VI.

The Safety Net Health Care System
Health Care at the Margins
Gunnar Almgren, MSW, PhD, Taryn Lindhorst, MSW, PhD

A unique and authoritative guide to the US safety net health care system, this book addresses how this system deals with and impacts various populations and their difficult health and socio-economic issues. Drs. Gunnar Almgren and Taryn Lindhorst, experts in the fields of social work and public health, provide critical, much-needed insight into the safety-net system and how the recession, unemployment, and reform have accelerated its growth.

Ideal for graduate students and early professionals in the health professions, this textbook:

- Includes narratives from patients and caregivers that will help readers understand and empathize with the poor, homeless, and other vulnerable populations affected by the safety net system
- Discusses various health issues, including: violence, chronic diseases, mental illness, victimization, and substance abuse/addiction
- Examines overlaps in US public health, social work, nursing, and medical education
- Analyzes the differences between the populations that depend on safety net system providers and more advantaged populations that have access to the mainstream health care system

Children of Substance-Abusing Parents
Dynamics and Treatment
Shulamith Lala Ashenberg Straussner, PhD, CAS
Christine Huff Fewell, PhD, LCSW, CASA, Editors

“Children of Substance-Abusing Parents: Dynamics and Treatment is a necessary reference for all mental health professionals and students who need to understand and treat this population. It offers an invaluable look at treatment options and programmatic interventions across the life span and fills an important gap in the current literature. The contributors include a wide range of experts who provide up-to-date evidence-based clinical and programmatic strategies for working with children of alcohol and other substance-abusing parents of any age and in almost any practice setting. This highly recommended book is a valuable resource for all practitioners and students concerned about this very large, but often hidden group of individuals and families.”

– Sis Wenger
President/CEO
National Association for Children of Alcoholics

Parental drug abuse and alcoholism have an enormously detrimental impact on children and adolescents. Children whose parents suffer from drug abuse or alcoholism often face multiple physical, mental, and behavioral issues. They are at a greater risk for depression, anxiety, low self esteem, and addiction, and also are known to have poor school attendance, difficulty concentrating, and lower IQ scores.

Statistics and Data Interpretation for Social Work
James A. Rosenthal, PhD

Written by a social worker for social work students, this is a nuts and bolts guide to statistics that presents complex calculations and concepts in clear, easy to understand language. It includes numerous examples, data sets, and issues that students will encounter in social work practice. This edition addresses the role that statistics plays in evidence-based practice and program evaluation, includes data sets and examples from new social work domains, as well as examples of qualitative and quantitative analysis.

Key Features:
- Contains dozens of relevant problems in each chapter
- Includes electronic data sets taken from actual social work arenas
- Comes with PowerPoint slides and Instructor’s Manual for professors
- Offers SPSS and Manual
- Designed for stand-alone statistics courses or as an ancillary text

Treating Young Veterans
Promoting Resilience Through Practice and Advocacy
Diann Cameron Kelly, PhD, LMSW, Sydney Howe Barksdale, PhD, JD, David Gitelson, PhD, LCSW, Editors

“The editors of Treating Young Veterans and the authors of the individual chapters [provide] practitioners with essential information about the needs, desires, and possibilities for veterans and their families. This book represents a thoughtful, sensitive, and sensible approach to working with military personnel and veterans who have been deployed to wars in the Persian Gulf, Iraq, and Afghanistan.”

– Peter B. Vaughan
Dean, Graduate School of Social Service
Fordham University, New York, NY

Many veterans unsuccessfully attempt to self-manage their mental and physical health needs. This volume examines the multiple challenges awaiting the new generation of young veterans returning to civilian life, and provides strategies for mental health professionals to assist them in the process of readjustment.

Practical Clinical Supervision for Counselors
An Experiential Guide
Lisa Aasheim, PhD, NCC, ACS

As the field of counseling continues to experience major growth, the need for clinical supervisors is growing proportionally. This stand-alone text for graduate and post-Masters level supervision courses contains all of the information clinical supervisors will need to practice effectively in community mental health and private practice settings. It aligns with current supervision standards issued by the Association for Counselor Education and Supervision, as well as with the recommendations of the American Association for State Counseling Boards.

Key Features:
• Aligns with current national and state-specific supervision standards
• Engages readers in multiple exercises that readily facilitate application of concepts and theories
• Provides solutions to common and emerging supervision dilemmas

Empathy in Psychotherapy
How Therapists and Clients Understand Each Other
Frank M. Staemmler

According to large scale studies on therapeutic outcomes, psychotherapists’ ability to understand their clients has been considered the second most important healing factor in all therapies. The author of this scholarly volume seeks to improve our understanding of the immense therapeutic potential that the human capacity for empathy holds, and to improve our use of it in therapeutic practice.

Key Features:
• Improves our understanding of the potential for empathy to greatly enhance therapeutic practice
• Draws from philosophy, literature, theology, psychology, social sciences, and neuroscience to create a new definition of empathy
• Critiques traditional concepts of empathy and highlights their strengths and weaknesses

The Professional Practice of Rehabilitation Counseling
Dennis R. Maki, PhD, CRC, NCC, Villa M. Tarvydas, PhD, LMHC, CRC

Based on the Handbook of Rehabilitation Counseling (Rigger/Maki 2004), this new volume has been completely revised and updated to accommodate the overarching changes that have recently occurred in the field. It reflects the new, accepted definition of rehabilitation counseling as a specialization within the field of counseling and demonstrates how the knowledge, skills and attitudes of rehabilitation counseling complement those of mental health counseling.

New to This Edition:
• Learning objectives for each chapter
• Content review and discussion questions for each chapter to enhance active learning
• PowerPoint presentations for instructors’ use
• Model syllabus for an introduction to rehabilitation counseling course for instructors

Youth Violence
Theory, Prevention, and Intervention
Kathryn Seifert, PhD

In the US, youth violence is the second leading cause of death for young people between the ages of 10 and 24. This volume, authored by a noted psychotherapist with more than 30 years of experience in family violence, examines recent violent episodes perpetrated by young offenders in order to understand their root causes and to disseminate current prevention and treatment methods through a multidisciplinary lens.

The book addresses the theoretical underpinnings of youth violence from the perspectives of psychology and neurobiology, describes different types of violence, includes the latest research on “what works” in prevention and treatment, and examines connections between substance abuse, familial and community violence, and school failure in promoting violence in adolescents. Youth Violence is a comprehensive yet highly readable volume for mental health and social service professionals who work with youth and families, as well as for violence researchers.

Key Features:
- Provides real life case studies from Virginia Tech, Columbine, and other recent violent incidents perpetrated by young people
- Written by an author with over 30 years of experience in youth violence and creator of the premier risk assessment test in use today
- Offers the latest findings on “what works” in prevention and treatment

Social Work Practice and the Law
Lyn K. Slater, PhD, Kara R. Finck, JD

Based on the author’s innovative and nationally recognized prototype for inter-professional work at Fordham University, this is the only volume about social work and the legal system that is written from the social worker’s perspective. Devoid of “legalese,” the book is designed to help social workers develop the ability to reappraise, question, and challenge the law to best serve their clients. It aims to promote the development of a more strategic relationship with the legal system—a partnership that can achieve more creative and just solutions to social problems.

Exhaustive in scope, Social Work Practice and the Law identifies current national and international trends and legal movements that support and invite inter-professional, critically competent social work participation. Each chapter includes vivid case studies based on actual collaborations that illustrate the application of theory to practice. Chapters also include legal, social work, and evidence-based resources.

Key Features:
- Promotes a proactive approach to the ways in which social workers can use law to promote clients’ best interests
- Addresses all domains of social work practice—child welfare, housing law, educational access, disability law, benefits, and more
- Offers abundant case studies taken from the authors’ real-life work
- Devoid of “legalese” and written from a social worker’s perspective

Sibling Aggression
Assessment and Treatment
Jonathan Caspi, PhD

Most people see aggression between siblings as an unavoidable, normal and ultimately harmless aspect of child development, yet it can often cause social adjustment and behavioral problems, some of which may be severe and even precursors to other forms of violence. This volume addresses a significant void in family studies and child development literature by providing an empirically based guide to the causes, assessment and treatment of sibling aggression.

Caspi considers both extreme (severe physical and sexual abuse) and lesser (competition and antagonism) forms of aggression and provides a step-by-step treatment program for five family dynamics that commonly exacerbate sibling aggression. Treatment is based on task-centered and family systems models and bolstered by case studies.

Key Features:
- Fills the void in the “emerging frontier” of sibling violence
- Includes step-by-step assessment and treatment procedures
- Offers case studies
- Examines cross-cultural factors in sibling violence as well as abuse of disabled siblings
Violence and Victims

Roland D. Maiuro, PhD, Editor-in-Chief

Now in its 24th year, Violence and Victims is a peer-reviewed journal of theory, research, policy, and clinical practice in the area of interpersonal violence and victimization. It seeks to facilitate the exchange of information on this subject across such professional disciplines as psychology, sociology, criminology, law, medicine, nursing, psychiatry, and social work.

Partner Abuse

John Hamel, LCSW, Editor-in-Chief

Partner Abuse, a peer-reviewed journal, recognizes that physical and emotional abuse among dating, cohabitating, and married partners is a major public health and social problem in North America and around the world. Its purpose is to advance knowledge, practice, and policies through a commitment to rigorous, objective research and evidence-based solutions. In addition to original research papers and literature reviews, the journal welcomes viewpoints and commentaries on the topic of partner abuse, as well as clinical case studies, book reviews, and letters to the editor.

CHILD AND FAMILY SOCIAL WORK

Parenting Coordination
A Practical Guide for Family Law Professionals
Debra K. Carter, PhD

The Parenting Coordinator (PC) makes decisions to help high-conflict parents who cannot agree to parenting decisions on their own. This professional text serves as a training manual for use in all states and provinces that utilize Parenting Coordination, addressing the intervention process and the science that supports it.

The text offers up-to-date research, a practical guide for training, service provision, and references to relevant research for quality parenting coordination practice. Specifically, this book describes the integrated model of Parenting Coordination, including the Parent Coordinator’s professional role, responsibilities, protocol for service, and ethical guidelines.

MENTAL HEALTH AND SUBSTANCE ABUSE

Strengthening the DSM
Incorporating Resilience and Cultural Competence
Betty Garcia, PhD, LCSW
Anne Petrovich, PhD, LCSW

This text discusses the limitations of the DSM and proposes the addition of a sixth axis to address client behaviors and contexts. The authors demonstrate the use of strengths-based multicultural diagnostic processes and applications of the proposed Axis VI to specific mental disorders. The text reviews relevant etiology and evidence-based research for each disorder and highlights current comprehensive, strength-based and culturally competent approaches to diagnosis and treatment.

Grief Therapy with Latinos

*Integrating Culture for Clinicians*

**Carmen Vazquez, PhD**  
**Dinelia Rosa, PhD**

This book serves as both a graduate textbook and clinical reference that helps in the understanding of relevant cultural values and their effect on the grieving process. *Grief Therapy with Latinos* also addresses the application of specific interventions in a culturally appropriate manner, including the importance of language in grief therapy, psychology, and counseling with a Latino population.

The main focus of this book is to identify underlying pathologies, depressions, or anxieties that could have existed before, and the relevance of the cultural components that can interfere with the adaption to and the resolution of grief.

**Key Features:**
- Addresses culturally specific and diverse narratives of loss to illustrate cultural revelations in the grief process and the clinical assessment of denial and spirituality
- Discusses the relevance of language in the expression of grief, assessment, and treatment
- Presents clear and easy-to-read grief therapy approaches and methods
- Includes adaptations of traditional psychotherapeutic techniques, incorporating relevant cultural values

Partner Abuse
John Hamel, LCSW, Editor-in-Chief

Partner Abuse, a peer-reviewed journal, recognizes that physical and emotional abuse among dating, cohabiting, and married partners is as a major public health and social problem in North America and around the world. Its purpose is to advance knowledge, practice, and policies through a commitment to rigorous, objective research and evidence-based solutions. In addition to original research papers and literature reviews, the journal welcomes viewpoints and commentaries on the topic of partner abuse, as well as clinical case studies, book reviews, and letters to the editor.
